

California Law Review

VOL. 46

MARCH, 1958

No. 1

Atomic Energy and the Law

There are contained in this volume the contributions of some of the speakers at the Symposium on Atomic Energy and the Law, conducted at the School of Law of the University of California at Berkeley, California, on November 14, 15 and 16, 1957.

In general the material is an expanded version of the addresses at the Symposium. The Review has only printed six of the many excellent presentations for the reason that space and budget limitations prevented more extensive reproduction. The addresses by William Clark, Robert Lowenstein, George C. Kern, Jr., and Edmund D. Leonard are being printed separately and should be available shortly.

The Symposium was the first held in the western United States on the legal problems incident to the new area of atomic energy. It is hoped that this initial effort will cause additional research and writing in this newly vital field. The School of Law is indebted to the individuals who participated in the Symposium and made it one of such high quality. Special thanks are due to Mr. Dean C. Dunlavey, who assisted in the original planning of the Symposium, and also to Congressman Chet Holifield and Messrs. Oliver Townsend and Oscar Reubhausen of New York City, who were very helpful in suggestions as to personnel and subject matter.

ADRIAN A. KRAGEN

Chairman, Planning Committee

Session Chairmen

WILLIAM L. PROSSER, Dean of the School of Law, University of California

HON. ROGER J. TRAYNOR, Justice, Supreme Court of California

JUDGE THOMAS J. CUNNINGHAM, General Counsel of the Regents, University of California
